Test results report of 8base documentation Quick Start

Tested by Khalikova Liliya

Email: lilimoonkh@gmail.com

Environment:

Device	Laptop Xiaomi
OS	Windows 10 OS x64
Build	19043.1237
Browser	Yandex 21.9.0.1052

Testing process

1. Creating an 8base account

1) In the registration form in the password field, it would be good to apply a hint to create a password (min/max number of characters, use of special characters and numbers).

2) There is no direct link for a quick transition indicated in the text (see screenshot below) at one of the steps of creating account

8 base

Hey, Liliy!

You said that you're working with a team. Let them know you're on 8base!

TEAM MEMBERS

| Email Address | ∨ | Send |

Our platform is designed for use by developers. We are happy to hop on a call with you to discuss your idea. We have a team of amazing designers and developers who are ready to help bring your vision to live. You can still jump into 8base if you like using the link below.

We'd love to learn about what you're working on. Here's a calendar link to book time.

Schedule

2.1. Building a Data Model

1) When adding the user field to the table *Notes*, there is no information in the guide what to do with the validation field(see screenshot below)

user   Type: Table

Cancel   Save Field

Relation Field Name

notes

Table Relationships

N   U

[ ] Allow multiple **Notes** per **User**

[✓] Allow multiple **Users** per **Note**

Description

A notes other

Validation

[ ] **notes** field is Mandatory

[ ] **user** field is Mandatory

3. Setting up the Client

1) When creating a tree-like directory separation structure, it would be good to specify which environment linux or windows is needed, since the *touch* command on the command line failed to create a file README.md(screenshot below). The file was created manually by the file system in the *client* folder.

```
# Project Directory Tree

8base-starter-app
├── README.md
├── client/
└── server/
```

Lets create a new directory with this separation in mind by creating the above `Project Directory Tree` structure. This can be accomplished with the following two shell commands.

```
# Make directory with client/ and server/ directory at root
mkdir 8base-starter-app 8base-starter-app/client 8base-starter-app/server

# Move into project and add README.md
cd 8base-starter-app && touch README.md
```

3.2. Deploy a Serverless Function

1) Following the instructions of the manual we need to create a server project in the server folder, but the command needed to create is wrong, because the project name cannot begin with a period(screenshot below).

3.2 Deploy a Serverless Function (OPTIONAL)

This step is **totally optional** in the quickstart. It will show you how to quickly extend your workspace by generating and deploying serverless functions to a workspace.

Move into the `8base-starter-app/server` directory. Let's initialize a new server project and configure it to a hosted workspace. Using the `init` and `configure` commands will generate and configure the needed resources. The workspace you select is the one where the Custom Functions will be deployed to when ready.

```
# Change into the server directory
cd ../server

# Init new 8base project with one function called myCustomResolver
8base init . --functions=resolver:myCustomResolver

# Install dependencies
npm install

# Configure the project's workspace
8base configure

✓ Select workspace for current project › Default Workspace
```

3.3. Choose a Starter App/Framework for the Frontend

1) Commands for using one of the frameworks assume that the user is familiar and has a Git installed on the local computer. In the opposite case, the command line does not execute the specified commands, so a Git bash is needed.

8base gives you full freedom to use whatever front-end technologies/frameworks you love. For this quickstart, we recommend that you use one of our starter apps. Currently, they are:

Framework	Repo	Clone
Vue	Repo	`git clone https://github.com/8base/vue-8base-starter-app.git`
React	Repo	`git clone https://github.com/8base/react-8base-starter-app.git`

Depending on the framework you wish to use, try cloning it into the `8base-starter-app/client` directory.

```
# Move into the client directory and
cd ../client

# Clone Starter App
git clone <CloneUrl> .

# Install dependencies
npm install
```

3.4. Setting Up The Client

To get data about environment variables, the user must have extended access to the platform functionality, otherwise it is not necessary to fill in the *8base-starter-app/client/.env* file for further use of the application.

4. Run the App

When trying to log in to your profile using your username and password, if the user has forgotten the password and wants to change it, the system notifies that it will send a confirmation code to reset and enter a new password, but in fact no code was received by mail, a similar situation if you try to reset the password in the *sign-in and security* section.

Summary

A convenient and quite understandable quickstart to familiarize with the platform, you can add more detailed information for junior developers who may well have some technical glimpses with working on the command line or Git. It is necessary to finalize the possibility of resetting and updating the user's password.

Abstract

Lorem ipsum dolor sit amet, consectetuer adipiscing elit, sed diam nonummy nibh euismod tincidunt ut laoreet dolore magna aliquam erat volutpat. Assessments and Measures

Ut blandit malesuada quam, ac varius tortor gravida eget. Vestibulum id ligula leo, ut accumsan mi. Sed tristique euismod convallis. Nulla facilisi. Etiam vestibulum est id orci interdum vitae porta enim blandit. Cras sit amet arcu dolor, at venenatis erat. Vestibulum accumsan placerat mauris. Morbi nec nibh nibh. Duis ultricies posuere nunc. Morbi at tellus quis magna vestibulum eleifend.

Heading 3 is the beginning of a paragraph ending with a period. Maecenas ullamcorper bibendum consequat. Pellentesque ultrices, eros eu tincidunt pretium, magna leo volutpat libero, non bibendum diam nunc eget urna. Vivamus eu tortor et dui aliquam vestibulum at vel augue. Vivamus elit dui, porttitor eget egestas at, rhoncus in justo. Curabitur tristique, elit ac venenatis volutpat, eros mauris iaculis diam, vitae rhoncus erat metus vitae eros.

First Heading 4 level in the section. Nulla congue egestas ante, id ultricies orci dignissim commodo. Fusce placerat, libero eu pharetra pulvinar, lorem dui pulvinar nisi, et semper orci orci vitae magna. Nullam sodales, felis id feugiat scelerisque, tortor nulla interdum mauris, ac porttitor odio dolor eget eros.

Second Heading 4 level in the section. Duis sit amet ipsum pretium erat accumsan iaculis vitae eget risus. Donec ut dui in lorem volutpat fermentum bibendum pulvinar libero. Nunc imperdiet eros et mi posuere pellentesque. Donec tincidunt ipsum eget nisl ullamcorper eu placerat libero ullamcorper. Maecenas id luctus ligula. Cras condimentum eleifend nibh sit amet iaculis. Suspendisse placerat sollicitudin mi, vel ornare augue hendrerit ac. Nulla sed suscipit sapien. Cras pellentesque orci lectus, eu consequat enim.

First Heading 5 level in the section. Nulla congue egestas ante, id ultricies orci dignissim commodo. Fusce placerat, libero eu pharetra pulvinar, lorem dui pulvinar nisi, et semper orci orci vitae magna. Nullam sodales, felis id feugiat scelerisque, tortor nulla interdum mauris, ac porttitor odio dolor eget eros.

Second Heading 5 level in the section. Duis sit amet ipsum pretium erat accumsan iaculis vitae eget risus. Donec ut dui in lorem volutpat fermentum bibendum pulvinar libero. Nunc imperdiet eros et mi posuere pellentesque. Donec tincidunt ipsum eget nisl ullamcorper eu placerat libero ullamcorper. Maecenas id luctus ligula. Cras condimentum eleifend nibh sit amet iaculis. Suspendisse placerat sollicitudin mi, vel ornare augue hendrerit ac. Nulla sed suscipit sapien. Cras pellentesque orci lectus, eu consequat enim.

Results

Maecenas id luctus ligula. Cras condimentum eleifend nibh sit amet iaculis. Suspendisse placerat sollicitudin mi, vel ornare augue hendrerit ac. Nulla sed suscipit sapien. Cras pellentesque orci lectus, eu consequat enim.

Outcome 1

Lorem ipsum dolor sit amet, consectetuer adipiscing elit, sed diam nonummy nibh euismod tincidunt ut laoreet dolore magna aliquam erat volutpat.

Outcome 2

Lorem ipsum dolor sit amet, consectetuer adipiscing elit, sed diam nonummy nibh euismod tincidunt ut laoreet dolore magna aliquam erat volutpat.

Discussion

Lorem ipsum dolor sit amet, consectetuer adipiscing elit, sed diam nonummy nibh euismod tincidunt ut laoreet dolore magna aliquam erat volutpat. Duis autem vel eum iriure dolor in hendrerit in vulputate velit esse molestie consequat, vel illum dolore eu feugiat nulla facilisis at vero eros et accumsan.
